

POB G6 v2.4 Administrator Training

With new features, customers have requested training. We will focus on configuring POB web features, utilizing the POB Enterprise Manager and other tools, along with other standard POB Administrator functions.

There will be two weeks of training, with three hours per day of instruction and then assigned labs over the course of ten business days.

The training runs the weeks of 11/4 and 11/11. Sessions are daily Monday-Friday 8:00 am - 11:00 am MST (the weeks of 4/11 and 11/11, Monday-Friday 16:00-19:00 CET).

The trainers for this session are outstanding at understanding your specific needs and problems, and providing unique solutions to them. Their hands-on training is delivered remotely but still world class. We encourage group sessions as it allows you to share best practices and network with other system administrators.

Our virtual session is limited to ten class participants. Sign up soon to get your seat reserved. Two-week training is only \$1,950 USD per person.

Please join us for our POB G6 v2.4 training

Learn how to utilize the POB web features, and much more.

Cost per seat for this hands-on training is \$1,950 USD.

Participation is limited, so register today to secure your place!

You will need to pre-register for this virtual training.
